**A few of our Rehabilitation rescues:**

“Angel” has Feline Cerebellar Hypoplasia. It is non-progressive, congenital neurological condition that results in walking, balance issues effecting fine motor skills. Tiki resident

Faith, hit by a car, recovered. Then got Bartonella with 106+ fevers, IV therapies, etc..RECOVERED again...love this girl. Tiki resident

Blue –critical pneumonia survivor\* 1 lung collapsed-inhaler needed. **Doing great- Available for Adoption**

Bambino, ACC Cruelty case rescue-FIP survivor. Tiki resident

Baby Pumpkin-Hit by a car –Bilateral broken pelvis. Continuing laser PT, regained 70% mobility. 3 months old. Hope to be able to avoid surgery

Rainbow-pneumonia and parasites. Full recovery \*Adopted

Pippin-Pony cruelty rescue \* **Adopted** \*

Chance, Attack survivor- neurologic and lung damage-full recovery \* **Adopted** \*

Marmalade-Rescued w/Mange, broken pelvis, FIV+, One eye and emaciated, Full recovery \* **Adopted** \*

**LOVE CATS BUT CANT HAVE ONE ?**  
**Be a SPONSOR for only 25.00-50.00**  
**Per month and you can choose your cat**  
**It will provide food supplements and medical attention**

Link aka Bunny Butt-Feral ACC rescue, manx syndrome-shortened spine. Mysterious illness 106+ fevers, infection unknown- IV therapies, PT, lots of TLC. He has made a full recovery. Tiki resident

Cancer remissions, Fospice care residents and fosters: Nutzie, Isabelle, Gina-GiGi

Other unadoptables, asthmatics, special needs and ferals also live at this Rescue/Sanctuary. They all need someone who loves them and can help us support their needs. Sponsoring is also a great alternative to “having a cat” and it lives here-win win ☺ .
